GENERAL SITUATION

New York State Governor Andrew Cuomo announced that restaurants in the state will be allowed to stay open until midnight and catered events until 1 a.m., starting Monday, April 19. Cuomo also said the state will allow fans back to horsing and auto racing tracks with restrictions starting April 23.

New York Gov. Andrew Cuomo signed legislation today establishing a first-in-the-nation program to provide affordable $15-a-month high-speed internet to low-income households. The COVID pandemic spotlighted the need for this law, Cuomo said, when so many school districts were forced to switch to remote learning.

New York City: For the first time, supply appears to be outpacing demand, despite the temporary loss of the single-dose Johnson and Johnson vaccine, which remains shelved across the nation as experts investigate reports of blood clotting that has occurred in a fraction of those who received the shot. The CDC has announced that the panel expects to make a decision on the vaccine in the next 10 days.

New Jersey Governor Phil Murphy extended New Jersey’s public-health emergency because of the coronavirus into its 14th month. Murphy’s executive order extends the emergency another 30 days, taking it through mid-May. It expires every 30 days if not extended.

New Jersey: As of Monday, 19 April vaccine eligibility in New Jersey opens up to everyone age 16 and older. Vaccine administrators said that they are anticipating high demand and not enough immediate appointments to satisfy those who are eager to be inoculated.
